SENTINEL DIGITAL VACUUM GAUGE

The **Sentinel Digital Vacuum Gauge Model DVG-1** enables the dairy farmer to monitor the dairy system vacuum accurately to 1/100" Hg. The Sentinel DVG-1

is designed to be installed on the wall of a dairy farm breezeway, so it is water resistant. Compact in size but with 9/16" LED digits, one can view it from many feet away. The DVG-1 is powered with DC voltage from a wall transformer to allow continuous viewing of vacuum levels. **PRICE:** \$270

SENTINEL DIGITAL PRESSURE GAUGE

Our Digital Pressure gauge (DPG-1) measures psig from 0 to 100. The model incorporates a high-impact, splash-resistant ABS plastic enclosure with mounting flanges for attachment to flat surfaces. **PRICE:** \$270

SENTINEL DIGIMET 3000 – VERSION 4.0

The latest model DIGIMET provides unparalleled convenience for measuring vacuum level characteristics and pulsation attributes in the

dairy milking system. Spot-check critical variables, store and recall data, upload to a computer or print to the available DIGIMET printer. **We now have a Spanish version of the Digimet 3000.** **PRICES:** Basic \$1125, Complete \$1695
